DISRUPTIONHUB

YOUR OPS NEVER SLEEP. NEITHER DOES OURS.

AI-powered logistics operations. Built for UK road freight.

Every incident costs money. DisruptionHub detects it, analyses it, and gives your ops manager **one decision — approve or reject — in under 30 seconds.** No new software. No training. Just results.

⚡ INCIDENT DETECTED › 🤖 AI ANALYSES › 📱 SMS ALERT TO OPS › ✅ OPS REPLIES YES › 🚚 DRIVER NOTIFIED › 📊 FULL LOG SAVED

LIVE INCIDENT FEED

- CRIT Reefer Fault — M62 J27
- HIGH Temp Alarm — NHS Load

● LIVE

REAL SITUATIONS · REAL OUTCOMES

IT HANDLES THE CHAOS. YOU STAY IN CONTROL.

WHAT YOU GET

DRIVER APP

- **Pre-shift vehicle check** — legal record, defects block departure until ops confirms
- **Live job progress** — At Collection · **Loaded** · **At Customer** · **Delivered**
- **POD confirmation on every delivery** — signature, photo, or safe place
- 32 **issue scenarios** — breakdown, temp alarm, accident, tacho fault and more
- GPS location captured automatically on every alert
- **Works on any phone** — no app store, no installation required

AI OPERATIONS AGENT

- **Full UK logistics knowledge** — WTD hours, cold chain thresholds, **ADR, NHS SLAs**
- **Clear numbered actions for** the driver, full ops analysis behind one tap
- **Rerouting options with real** UK road names and junction numbers
- **1.5× road time buffers** applied automatically to every estimate
- **Secure truck park recommendations by** name, junction and accreditation

SMS COMMAND CENTRE

- Ops manager alerted by SMS on every **HIGH** or **CRITICAL** incident
- **Reply YES** — dispatches recovery, reroutes driver, or calls carrier automatically
- **Reply NO to reject** · **OPEN** for dashboard **link** · **STATUS** for last 3 incidents
- Driver receives SMS confirmation the moment ops approves
- **Approvals expire after 4 hours** — no stale actions ever executed
